CONSENT AGREEMENT

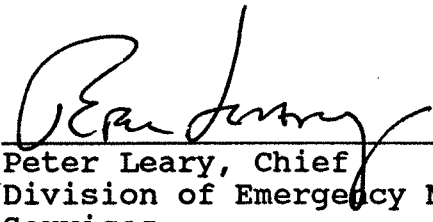

This matter is before the Department of Health, Division of Emergency Medical Services (hereinafter "Department"), upon allegations that Natasha Chen, a licensed Emergency Medical Services Instructor Coordinator (hereinafter "Respondent"), failed to adhere to the guidelines for Emergency Medical Services Instructor-Coordinator while conducting an EMT-A Training Program at Cherry Semiconductor from September 14, 1993 to January 25, 1994. A conference was held between the parties on 25 May 1994 and it was agreed as follows:

1. That Respondent agrees to a voluntary surrender of her license as an Emergency Medical Services Instructor-Coordinator, for an indefinite period of time effective upon the signing of this Agreement, provided, however, Respondent shall be authorized to conduct EMT state license practical examinations with prior approval of the state EMS Training Coordinator.
2. That Respondent may apply for reinstatement of her Emergency Medical Services Instructor-Coordinator license at such time as she can demonstrate to the satisfaction of the Department that she has actively

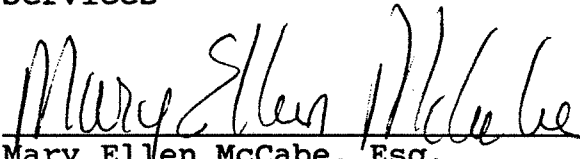

participated in the coordination and instruction for the conduct of an EMT-A Training Program, an EMT Refresher Training Program, and one other EMT Training Program approved by the Department. Such coordination and instruction shall occur under the supervision of a licensed Emergency Medical Services Instructor-Coordinator as approved by the Department's EMS Training Coordinator.

3. That this Consent Agreement shall obviate the necessity for formal administrative action and shall constitute a final disposition of the matters forming the basis for this Consent Agreement.
